CASE STUDY

Specialist Contractor

FUME CUPBOARD INSTALL AT CHEMICALS COMPANY

ISSUE

A chemicals company was installing a new R&D laboratory and required the installation of 16 new benchtop fume cabinets.

SOLUTION

Exeon supplied and fitted the 16 cabinets complete with gas and water supplies, digital airflow readouts and new extraction systems with PVC ducting and PP fans. Several other LEV systems were also installed to machines and processes.

PROJECT VALUE

£91,000

Ref: C124859
